PUBLIC COMMENT

The following items are not subject to public comment:

- All items on the closed session agenda; these are HEX and EX items.
-

Public Comment:

Re 53:

Assemblymember Dave Jones, Sacramento, CA

Supervisor Illa Collins, Sacramento County Board of Supervisors, Sacramento, CA

Consent Agenda

Items shown on the Consent Agenda will be taken up and voted on as a group in one of the first items of business of each Commission meeting. Items may be removed from the Consent Agenda for discussion on the Regular Agenda at the request of any Commissioner prior to the meeting.

Orders and Resolutions

1 C88-03-016 - The City of St. Helena, Town of Yountville, County of Napa, Napa Valley [5267] Vintners Association vs. Napa Valley Wine Train, Inc.

Following decisions by the Court of Appeal and the California Supreme Court, this decision denies Petition for Modification filed by Wine Train and closes this proceeding. The denial leaves standing Decision 01-06-034, in which the Commission determined that Wine Train's excursion service is not a public utility service.

R00-02-004 - Order Instituting Rulemaking on the Commission's own motion to establish consumer rights and consumer protection rules applicable to all telecommunications utilities.

This decision grants \$58,373.00 in intervenor compensation to The Utility Reform Network (TURN) for its further contributions to D04-05-057, approximately \$78,085 less than TURN requested. Only amounts directly attributable to preparing and filing TURN's motion to intervene in federal litigation seeking to overturn D04-05-057, and amounts for preparing its compensation claim, have been allowed.

Res T-17006 - Citizens Telecommunications Company of California, Citizens Telecommunications Company of Tuolumne, and Citizens Telecommunications Company of the Golden State.

This resolution authorizes Citizens Telecommunications Company of California (California Citizens) and Citizens Telecommunications Company of the Golden State (Golden State Citizens) to grandfather their 75% employee telephone concession service associated with its residential "Citizens Select" service offering and also authorizes Citizens Telecommunications Company of Tuolumne (Tuolumne Citizens) to withdraw its 75% employee telephone concession (since the carrier has no employees on this concession plan) associated with its existing residential "Citizens Select" service offering. This resolution also authorizes California Citizens, to introduce a 50% employee telephone concession associated with its "Frontier Choices" tariff offering and "Frontier California Choices" package offering, and also authorizes Tuolumne Citizens and Golden State Citizens to introduce a 50% employee telephone concession associated with its "Frontier Choices" tariff offering. (California Citizens' Advice Letter (AL) 934, filed February 15, 2006, Tuolumne Citizens' AL 169, filed February 15, 2006, Golden State Citizens' AL 179, filed February 15, 2006)

[5472]

C04-12-012 - California Alliance for Utility Safety and Education vs. San Diego Gas & Electric Company and the City of San Diego.

This decision finds that, in planning and constructing the 30th Street 138 kilovolt underground conversion project in San Diego (Undergrounding Project), defendant San Diego Gas & Electric Company (SDG&E) did not comply with the mandates of the California Environmental Quality Act (CEQA), Pub. Res. Code § 21000 et seq., and General Order (GO) 131-B. Since the Undergrounding Project has already been built, however, the Commission will not now require SDG&E to take any remedial steps with respect to the requirements of GO 131-D or CEQA for the Undergrounding Project. The decision also finds that SDG&E complied with the requirements of Decision 93-11-013 regarding no-cost and low-cost measures to mitigate the impact of electromagnetic fields in its construction of the Undergrounding Project. This proceeding is closed. (Comr Brown - ALJ Simon)

11

[5484]

A02-10-007 - New Century Telecom, Inc. (NCT).

NCT requests authority under Section 854(a) to transfer ownership to Karyn Bartel (Bartel). The transaction was implemented without Commission authorization in March 2003. NCT's certificate of public convenience and necessity was revoked by Resolution T-16962, issued on October 27, 2005, for failure to file an annual report and to remit regulatory surcharges and fees. This Decision denies A02-10-007 because NCT is no longer a public utility and, therefore, Section 854(a) does not apply. Even if §854(a) did apply, the application would be denied because Bartel is unfit to own a public utility. This decision also orders NCT to pay a fine of \$55,000 for violating Rule 1, several decisions, and parts of the Public Utilities Code. To protect the public interest, NCT and Bartel are prohibited from providing public utility service in California until the fine levied by this decision is paid and past due surcharges and fees are remitted. Additionally, this decision finds that the Helein Law Group violated Rule 1 by providing false information to the Commission. In lieu of a fine, today's decision requires the Helein Law Group to provide notice in all documents filed at the Commission that the firm was found by this decision to have violated Rule 1. This requirement shall end after three years. Finally, NCT continues to provide interexchange telephone service, despite having no authority to do so. This decision directs Pacific Bell Telephone Company dba SBC California and Verizon California, Inc. to stop routing calls to NCT and to notify NCT's customers about the termination of service by NCT. This proceeding is closed.

[5498]

A00-11-038 - Southern California Edison Company.

For authority to institute a rate stabilization plan with a rate increase and end of rate freeze tariffs. A00-11-056, A00-10-028 - Related matters. This decision grants the Petition for Modification of D03-10-040 filed by Pacific Gas and Electric company (PG&E). In D03-10-040, the Commission addressed how PG&E and the other investor-owned electric utilities were to remit to cities and counties Municipal Surcharge Fees attributable to power charges collected on behalf of the California Department of Water Resources (DWR). This decision affirms that D03-10-040 does not address PG&E's remittance methodology for municipal surcharges generally, but is limited in applicability to DWR revenues.

[5519] **A05-05-019 - Telrite Corporation (Applicant).**
This decision denies Applicant's application for a certificate of public convenience and necessity authorizing the provision of resold local exchange services based on Applicant's failure to file user fee reports and public program surcharge reports for 2003 and 2004 as required by its licensing decision, D03-06-038, and as ordered by a ruling of the assigned Administrative Law Judge. If Applicant promptly comes into compliance with these requirements and does not engage in additional violations of law or Commission requirements, Applicant may reapply for a certificate of public convenience and necessity no sooner than one year after the date of the issuance of this decision. This proceeding is closed.

[5541]

C05-07-001 - William Arterberry, dba Farm ACW vs. San Diego Gas & Electric Company.

Pub. Util. Code §1701.2(d) provides that adjudication cases shall be resolved within 12 months of the date the complaint was filed unless the Commission makes findings why that deadline cannot be met and issues an order extending that deadline. In this proceeding, the 12-month deadline for resolving this matter is July 5, 2006. Based on the record in this proceeding, the Commission determines that parties' interests will be served by extending this proceeding to allow the parties to hold a hearing with adequate time to prepare. As a result, a 5-1/2 month extension order is required under Pub. Util.

Code §1701.2(d).

This decision grants the Applicant full-facilities based certificate of public convenience and necessity (CPCN) authority to construct specific aerial and underground projects in the City of Saratoga. This authority expands Applicant's currently held CPCN (U-6936-C) which authorizes the provision of limited facilities-based and resold local exchange and interexchange services. This decision also finds that Applicant's proposed aerial and underground construction projects, as described in the application, are exempt from further environmental review under California Environmental Quality Act. This proceeding is closed.

[5286]

A04-12-014 - Southern California Edison Company (SCE).

I05-05-024 - Related matters. This decision addresses the general rate increase request of the Southern California Edison Company (SCE). For test year 2006, SCE is authorized a revenue requirement of \$3,749,292,000, which reflects an increase of \$333,115,000 or 9.75% over the previously authorized level of \$3,416,177,000. The adopted methodology for calculating post-test year revenue requirements results in additional revenue requirement increases of \$143,350,000 (3.82%) for post-test year 2007 and \$192,573,000 (4.95%) for post-test year 2008. On a general rate case (GRC) revenue basis, when reflecting the effect of increased sales for the test year and post-test years, the revenue increases amount to \$273,455,000 (7.87%) for 2006, \$73,541,000 (1.93%) for 2007 and \$104,055,000 (2.61%) for 2008. On a total system revenue basis, the revenue increases amount to 2.74% for 2006, 0.72% for 2007 and 1.00% for 2008. These proceedings are closed.

R05-09-006 - Order Instituting Rulemaking concerning broadband over power line deployment by electric utilities in California.

This decision adopts a regulatory framework that fosters competition in the broadband market by providing regulatory certainty to California companies seeking to provide broadband over power lines (BPL). The benefits of BPL include a new “wired” broadband pipe to the home, promoting universal access to broadband services, and providing California electricity consumers with increased reliability and lower costs through new “smart grid” technologies. This decision is: (1) allowing third-parties or electric utility affiliates to provide BPL services; (2) protecting ratepayers and aligning financial risks and rewards; (3) adopting a mechanism for sharing any additional revenues received from BPL providers; (4) providing non-discriminatory access to utility poles and rights of way; (5) maintaining the safety and reliability of the electric distribution system; and (6) adopting a policy of exempting BPL-related transactions, with conditions, from the requirements of Pub. Util. Code § 851 pursuant to the Commission's authority under Pub. Util. Code § 853(b).

47a

[5457]

ALTERNATE TO ITEM 5349

The alternate draft decision varies from the draft decision in four key areas. The alternate Decision finds the energy affiliate rules are more appropriate for energy companies providing broadband over powerline (BPL) service in some capacity on their networks. In order to ensure acquisition of BPL rights on a network is not used to limit broadband paths to the home the alternate decision sets a five year "use it or lose it" period. The alternate decision adopts the "other operating revenue" (OOR) sharing mechanism as detailed in Decision 99-09-070, but it finds that, under the landlord/tenant arrangement, the investment is "passive" rather than "active" and applies the 70/30 rather than 90/10 shareholder/ratepayer sharing arrangement. Finally, the alternate decision waives the application of Pub. Util. Code Section 851 for purposes of the lease of BPL rights, but in order to prevent the effect of a sale of permanent PBL rights, it caps lease length at twenty years. The alternate decision also finds that no BPL lease shall extend beyond the year 2031 without a Section 851 proceeding or an application to continue to waive Section 851.

[5453]

R04-01-025 - Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of natural gas to California.

This decision addresses the April 1, 2005, motion of the Ratepayers for Affordable Clean Energy (RACE), which was reclassified as a petition for modification of Decision D04-09-022. RACE's petition for modification seeks to apply the California Environmental Quality Act to the Phase I activities which were reviewed and resolved in D04-09-022. Today's decision concludes that the activities related to the Phase I issues, and which led up to the adoption of D04-09-022, did not amount to a project within the meaning of CEQA and therefore CEQA did not apply to the Phase I activities. Accordingly, RACE's reclassified petition for modification of D04-09-022 is denied. D04-09-022 addressed the Phase 1 proposals of Southern California Gas Company, San Diego Gas & Electric Company, Pacific Gas and Electric Company, and Southwest Gas Company regarding interstate pipeline capacity contracts, liquefied natural gas access, and interstate pipeline access. Other Utility Orders**56 (Rev.)**

[5106]

R04-09-003 - Order Instituting Rulemaking on the Commission's own motion for the purpose of considering policies and guidelines regarding the allocation of gains from sales of energy, telecommunications, and water utility assets.

This decision adopts a process for allocating gains on sale received by certain electric, gas, telecommunications and water utilities when they sell utility land, assets such as buildings, or other tangible or intangible assets formerly used to serve utility customers. In most cases, utility ratepayers should receive 100% of the gain from depreciable property such as buildings, and 50% of the gain from non-depreciable property such as land and water rights, based on our finding that ratepayers bear many of the risks associated with owning such property. The utilities' shareholders should receive the remaining 50% gain on sale, partly to compensate for some financial risk borne by the utility and partly as an incentive to manage its assets wisely. This rule of thumb will apply to routine asset sales where the sale price is \$50 million or less and the after-tax gain or loss from the sale is \$10 million or less. Most ordinary asset sales that come before this Commission for approval should meet these criteria. This decision does not apply to routine retirements of minor utility assets that are no longer used and useful, such as utility poles, transformers, and vehicles, which are governed by Commission depreciation rules and schedules. The rule we develop here will not apply where the asset sale price exceeds \$50 million or the after-tax gain or loss exceeds \$10 million. The rule also does not apply to utility sales of assets of extraordinary character; sales of nuclear power plants; where a party alleges the utility engaged in highly risky and non-utility-related ventures; or where a party alleges the utility grossly mismanaged the assets at issue.

ALTERNATE TO ITEM 5106

This decision adopts a process for allocating gains on sale received by certain electric, gas, telecommunications and water utilities when they sell utility land, assets such as buildings, or other tangible or intangible assets formerly used to serve utility customers. In most cases, utility ratepayers and ratepayers should split the gains 50-50 based on our finding that both bear risks associated with owning such property. This rule of thumb will apply to routine asset sales where the after-tax sale price is \$50 million or less, or where the gain or loss from the sale is \$10 million or less. For depreciable assets subject to routine retirement and salvage, ratepayers will receive all of the gain or loss associated with these assets. Most ordinary asset sales that come before this Commission for approval should meet these criteria. The rules we develop here, however, will not apply where the after-tax asset sale price exceeds \$50 million or the gain or loss exceeds \$10 million. The rule also does not apply to utility sales of assets of extraordinary character; sales of nuclear power plants; where a party alleges the utility engaged in highly risky and non-utility-related ventures; or where a party alleges the utility grossly mismanaged the assets at issue.

A99-04-024 - Conference with Legal Counsel - Applications for Rehearing.

Disposition of Application for Rehearing of D04-02-025 filed by The Utility Reform Network. In D04-02-025, the Commission adopted capital additions of \$31,782,000 for Southern California Edison Company for non-nuclear generation plant added to rate base from 1997 through March 31, 1998, for non-divested generation plant, and for divested and retained generation plant through July 8, 1998. This amount represents capital additions for environmental, regulatory, safety, and FERC relicensing purposes. The Decision also approved capital addition costs for divested non-nuclear generation plant from 1997 through July 8, 1998, and to maintain plant through December 2001.

A05-05-010 - Conference with Legal Counsel - Application for Rehearing

A05-05-013; A05-05-029 - Related matters. The City of Morro Bay (City) and the Coastal Alliance on Plant Expansion (CAPE) applied for rehearing of Resolution (Res.) E-3929, contending Res. E-3929 errs: 1) in substantially modifying the draft resolution without adequate notice and opportunity for comment; 2) in finding attachments to PG&E's AL 2632-E are confidential and for withholding them from the public for a period of six months; 3) in failing to permit the City and CAPE from entering into a non-disclosure agreement to view the confidential documents; and 4) in failing to provide a hearing. In addition, Pacific Gas and Electric Company (PG&E) filed a petition for modification of Res. E-3929 essentially seeking deletion of Ordering Paragraph No. 2 which makes public certain documents currently designated as confidential six months after the issuance of Res. E-3929. That six month period was extended on October 4, 2005 for a period of 15 days following issuance of an order disposing of PG&E's petition for modification. Neither PG&E's AL 2632-E nor Res. E-3929 have docket numbers.
